PATENT  
Docket No. 20220-501

### REMARKS

This Amendment is filed in response to the Official Action mailed November 23, 2005 in connection with the above-referenced application. In this Amendment, Claim 17 is cancelled. Claims 11-15 and 18-23 were previously withdrawn. Claims 1-10 and 16 remain pending for further prosecution. Of these claims, Claim 1 is independent.

In the November 23, 2005 Official Action, the Examiner objected to Claim 17 as being of improper dependent form. Claim 17 is cancelled herein. The Examiner rejected Claims 1-10, 16 and 17 under 35 U.S.C. § 102(b) as being anticipated by *Lee* (U.S. Patent 5,123,917).

The Applicant strongly disagrees with the Examiner regarding the § 102(b) rejections of Claims 1-10, 16 and 17. Nowhere in the *Lee* reference is it suggested that the *Lee* device is a device for absorbing fluid pressure in a body lumen as claimed. Further, *Lee* does not teach or suggest an elastic member having an elasticity selected so as to provide a dampening response to increases in fluid pressure in a body lumen as also claimed.

Rather, *Lee* pertains to an expandable intraluminal vascular graft. The expandable aspect of *Lee* functions to expand a blood vessel and anchor the graft thereto. There is no disclosure nor suggestion within the *Lee* reference supporting an assertion that the *Lee* device could be used to absorb fluid pressure in a body lumen and, as such, is not properly a basis for rejecting the claims. Hence, not only does *Lee* fail to anticipate the claimed invention, *Lee* does not render the present invention obvious.

In light of the foregoing it is submitted that Claims 1-10 and 16 are allowable over *Lee*. Hence, it is requested that the Examiner indicate the allowance of these claims.
